JOHNNYTEICHTER

Pentester 

professor-oats@github

"Take risks. Unless it's security risks."

My React App

1 Skillset

1.1 General

Heavy on the frontend tech stack, React and Three.js to mention.

Graphical programming is my favorite so a lot of things end up in pixel pushing, shaders and visual hacks.

Latest addition to the stack of skills is Python for network manipulation and API consumption.

Know my way around computers and computer networks and can standard use many systems and different architectural solutions:

- Windows, *nix, FreeBSD, MacOS
- Git, Docker
- Virtualisation Technologies - Both pseudo with userland environments + Full
- Penetration testing against networks and web applications
- Safe usage and storage of Data to prohibit Data leaks and maintain confidentiality 

1.2 Languages and Misc.

C, C++, JS/TS, Node.js, Python, React, Spanish, Three.js

2 Education

2.1 Current: ITHS Pentester 2024-2026

A wide span of computer networking, programming and pentesting against Active Directory and Web. Finishing with a 6 months workplace education + examination.

2.2 Online courses + self studies 2021-2024

Hitting books and docs to push skill levels in the areas of development I like, mentions:

- freeCodeCamp Javascript Course 300 hours

- Online Courses of React and Node.js for Fullstack E-commerce
- NVIDIA - Ray Tracing In One Weekend - The Book Series
- Packt Publishing - Game Development, specifically OGRE
- Bjarne Stroustrup - The C++ Programming Language
- Craig Larman - Applying UML and Patterns
- Cybersecurity books by Christopher Hadnagy and Kevin Mitnick

2.3 Chalmers Technical University 2010-2013

Mechatronics - 3 years of studies (no exam)

Niched towards Robotics and Programming of microprocessors as well as Mechanics and Electronics to back it up

2.4 Sven Erikson Secondary Elementary 2007-2010

Global Programme of Technology

Technologics with additional courses in Nature Science

3 Work Experience

3.1 Any job 2021-2024

Applied for jobs towards Software/System Development/IT

Through the contacts gained I was told to get an exam to prove performant of workload and consistency.

Here is a list of job positions I had in meantime:

- Intern Customers Service
- Trial recruitment mobile and computer service
- Cleaner at Elementary School
- Intern Shoemaker
- Coordinate Analyst for Apple Maps
- Search Engine Result Evaluator
- ServiceDesk

3.2 Teleperformance Nordic 2021

Project employment 6 months abroad as Sales Agent in Customers Service

Main area was to guide customers on their subscriptions, offer sales and forward technical errands

3.3 Company 2018

Warehouse Worker

Packaging goods in freezer

3.4 Prevent Safety Solutions Seasonal 201710xx

Fireguard at oil company

Gained workplace education when working with flammables and in high risk production

3.5 Storesupport AB 2012-2013

Warehouse Worker/Truck Driver

Packaging goods and loading transports

3.6 Global Expansion AB Summer 2011

Canvas Salesman of telecom products
