PROFILE

Cybersec Examed Ed with passion for software and systems development.
Love research and learning about new and old technology.

EXPERIENCE

Enclave AB

STOCKHOLM, REMOTE
OCTOBER 2025 - MAY 2026

INFRASTRUCTURE LEAD DEVELOPER

- Built a single node air-gapped Kubernetes cluster of cloud native applications.
- Used helm template to set up and customise Vault, Gitlab CE, Nextcloud AIO, VLLM and more.
- Decided the methods to use for dev team, made a project plan and set goals + milestones.
- Researched AI Assisted clusters and wrote maintenance scripts for the environment.

Mekonomen Group

ÖSTERSUND, JÄMTLAND
MARCH 2024 - APRIL 2024

CUSTOMERS SERVICE AGENT

- Intern due to hiring stop, answered emails three hours per day and was assigned internal portal studies the rest.
- Found critical vulnerabilities in the portal and reported them to the team.

Alina Service

ÖSTERSUND, JÄMTLAND
JANUARY 2024

IT Högskolan

STOCKHOLM, REMOTE
MAY 2026

HIGHER VOCATIONAL DEGREE IN PENETRATION TESTING

SKILLS & CERTIFICATIONS

Skills: C, C++, Python, JavaScript, Bash, AI Agentics, NodeJS + React, HTML, CSS, YAML, TeX, XML

Systems: Windows, *nix, Kubernetes

Certifications: freeCodeCamp Javascript Algorithms and Data Structures

Courses: Operating System Hardening

Languages: Swedish, English

PROJECTS @ GITHUB

Current projects are a mix of different PoCs and QoL tools for work or hobby purposes. Two better showcases of coding knowledge I can think of is the React app "DigitalHippo", following @joshtriedcoding

- Websites/tree/main/DigitalHippo

And the repetition of Ray Tracing in One Weekend - The Book Series, Peter Shirley

- RepetitionRaytracer

WORK QUALITIES

In Developer role I value a structured development process with clear goals and timeline with strive to apply an iterative process. During the two Duo Projects I have had part in these qualities put me in leading position of ensuring a steady workflow, also to help colleagues with project or work structure through consultation or project planning.

As a colleague I adhere to the needs of the team, communicate, and adjust the role accordingly, unless given. I get motivated by being assigned responsibility over tasks from start to full completion, and by being helpful and positive towards co-operative work. I chip in extra effort to ease workload if it helps the growth of an individual or the team reaching the goals set.
